

### **PRODUCT DESCRIPTION**

**INDALOBLANC® BLANCO ESPAÑA** is intended for application on all types of greenhouse covers (plastic, glass, ...). It is a powder product based on selected aggregates and additives. By lowering the incident solar radiation, it also contributes to changing the climate within the greenhouse.

The following environmental factors are controlled by **INDALOBLANC® BLANCO ESPAÑA**:

- Radiation.
- Temperature.
- Humidity.

### **CHARACTERISTICS AND APPLICATIONS**

- Product in powder of easy dissolution in water.
- Good covering power.
- High power of reflection.
- Very fine product that protects the whitening pumps.
- Not aggressive against wire or plastic.
- Heavy metals free (free of chromium and bromine).
- It has no adherent capacity.
- Its functionality is limited to shade during its permanence on the cover.

### **HOW TO USE**

**INDALOBLANC® BLANCO ESPAÑA** is applied on the cover of the greenhouse.

To obtain the best results with **INDALOBLANC® BLANCO ESPAÑA** it is necessary to follow the following steps:

- The product should be poured little by little into the water tank until a homogeneous dilution is achieved (it is advisable to pre-dilute it in a container before pouring it into the application tank).
- It is important to have a system of suitable mixers to guarantee the total dilution of **INDALOBLANC® BLANCO ESPAÑA**.
- Maintain the continuous agitation of the mixers during the entire period of application of the product.
- The recommended depending on the required shade intensity is:

Shade intensity		
Medium	High	Very High
20 kg/100 L	40 kg/100 L	60 kg/100 L

### **RECOMMENDATIONS AND PRECAUTIONS**

- Do not apply with risk of frost, rain and strong winds.
- It should not be mixed with other products.
- For a correct adhesion the cover must be free of dust, grease or previous whitening products.
- Do not apply on wet covers.
- The persistence of the product depends on different variables beyond our reach such as peak seasonal rainfalls, hail, strong winds, age of plastic and / or inadequate cleaning of the cover.
- It is recommended to clean the equipment used in the application with clean water.
- If the product needs to be removed from the greenhouse cover, it is best to do so with pressurised water.

### **COMMERCIAL FORMATS**

**INDALOBLANC® BLANCO ESPAÑA** comes in 20 kg bags.
